AVA'S HOUSE OF MAKING

Fold a friendly dog

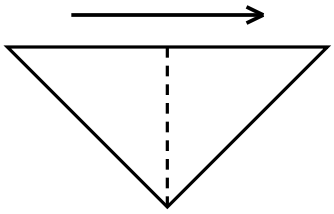

You need: one square of paper and a pencil. Ages 6+ with help. Dashed lines show creases.

1

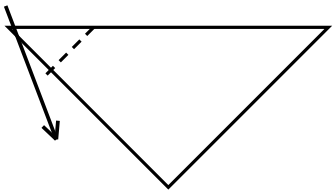

Start with a square turned like a diamond. Fold the top corner down to meet the bottom corner.

2

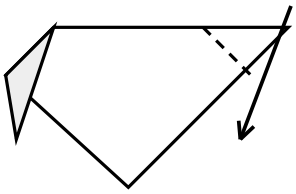

Keep the long edge at the top. Fold left corner to right corner, then open that fold to mark the middle.

3

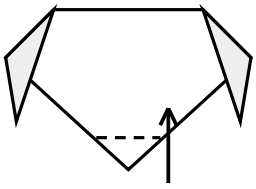

Fold the left corner down to make an ear. The dashed slant shows where the fold goes.

4

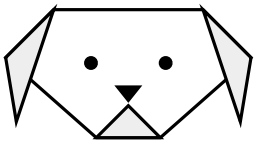

Fold the right corner down too. Your ears can be different sizes. Press both creases flat.

5

Fold a little of the bottom tip upward to make a chin. Press the fold flat.

6

Add eyes, a nose, and a smile. Give your paper friend a name!
